

POCT Market in the US 2015-2019

The report analyzes and presents an overview of " **POCT Market** in the US 2015-2019
"worldwide

About POCT

POCT, also called near-patient testing, is performed outside a clinical laboratory. It helps in making fast

clinical decisions, and hence in administering appropriate treatments and medication. POCT is gaining popularity due to the increasing incidence and prevalence of lifestyle diseases such as diabetes, heart disease, and obesity. It is generally cost-effective and user-friendly. POCT devices are standardized to minimize errors during the diagnosis of patients. POCT plays a major role in improving patients' quality of life.

The methods of POCT include meters or monitors and strips. The POCT diagnostic devices are of two types: bedside and near-bedside monitoring devices. The bedside POCT devices are small and offer mobility whereas the near-bedside POCT devices are large and complex. These devices are used to test cardiac biomarkers, blood coagulation, platelet function, HIV, hemoglobin concentration, and five-part differential blood count.

Technavio's analysts forecast the POCT market in the US to grow at a CAGR of 5.88% over the period 2014-2019.

Covered in this report

The report covers the current scenario and the growth prospects of the POCT market in the US for the period of 2015-2019. To calculate the market size, we consider the revenue generated from the sales of POCT diagnostic devices. The market is segmented based on application:

Blood glucose testing

Infectious disease testing

Cardiac markers testing

Pregnancy and fertility testing

Blood gas/electrolyte testing

Tumour markers testing

Urinalysis testing

Cholesterol testing

Technavio's report, POCT Market in the US 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report presents the vendor landscape and a corresponding detailed analysis of the key vendors in the market. The report also outlines the challenges faced by vendors and the market at large, as well as the key trends emerging in the market.

Key vendors

Abbott diagnostics

Alere

Roche Diagnostics

Siemens Diagnostics

Other prominent vendors

Abaxis

Acon Laboratories

Avioq

Span Diagnostics

Sysmex

Thermo Fisher Scientific

Trivitron Healthcare

URIT

Market driver :North America free trade agreement

Market challenge : Limitation of POCT products

Market trend : Key role of USAMRIID
